Education

B.Tech (CSE – AI & ML)	2022–2026
Anil Neerukonda Institute of Technology and Sciences	CGPA: 8.75
Senior Secondary (XII)	2022
Sri Chaitanya Junior College	85%
Secondary (X)	2020
Sri Chaitanya School	100%

Experience

Machine Learning Intern — CodTech IT Solutions May 2025 – June 2025

- Implemented machine learning models including decision trees, and image classification.
- Performed data preprocessing, model training, and evaluation using Python and Scikit-learn.
- Worked on a recommendation system and evaluated performance using RMSE.

Full Stack Web Development Intern — EduMoon 2023

- Developed a student portal web application with authentication, session management, and role-based access.
- Built REST APIs using Flask and integrated MongoDB for storing student data and results.
- Implemented CRUD operations and admin dashboard to manage academic records efficiently.

Projects

Smart Food Recommendation System

- Developed a system that suggests food based on user mood, weather conditions, and age.
- Used React.js for frontend and Flask with Python for backend development.
- Integrated OpenCV and DeepFace for emotion detection and Weather API for real-time data input.
- Implemented a rule-based recommendation logic to generate personalized suggestions and display calorie information.
- Improved user decision-making by providing context-aware recommendations without using past user history.

Student Portal Web Application

- Built a secure web application for managing student results using Flask, MongoDB, and REST APIs.
- Implemented authentication, session handling, and role-based access control for students and admin.
- Developed full CRUD functionality for managing academic data efficiently.
- Optimized database queries and improved system responsiveness for better user experience.

Technical Skills

- **Languages:** Python, Java, C, SQL, JavaScript
- **Web:** HTML, CSS, Flask, MongoDB, MySQL, REST APIs
- **Tools & Technologies:** Git, GitHub
- **Core CS:** Data Structures & Algorithms, OOPS, DBMS
- **Machine Learning:** Basic Machine Learning, Scikit-learn

Achievements & Certifications

- Solved 150+ Data Structures and Algorithms problems across LeetCode and HackerRank.
- NPTEL – Java Programming
- NPTEL – Cloud Computing
- CodTech IT Solutions – Machine Learning Internship
